# GET RID OF GARBAGE AND TRASH

...for a clean house

COPY

## A Clean House is Free of Garbage and Trash

- A house without garbage and trash is more pleasant and prettier to live in.
- A clean house does not draw flies, mosquitoes, or other pests. It is a healthier place to live.

## Get Rid of Waste Food:

- Do not let food scraps stay on the table or floor. They draw flies, bugs, and pests.
- Put all food scraps in a covered garbage can.
- Burn or bury garbage, or
- Let the garbage truck pick it up.

### **Get Rid of Trash:** (Paper, boxes, tin cans, junk)

- Burn all trash that will burn, if your town allows it.
- Haul trash that won't burn to a trash dump, or
- Put it where the trash man will pick it up, or
- Bury trash if there is no place to haul it.

### **Get Rid of Waste Water:**

If you do not have a sink:

- Pour waste water from the kitchen on your garden, or
- Dig a hole away from the house

1023089062

- Fill it with rocks
- Empty waste water there.

- Do not throw water in the yard
  - It makes mud
  - Mud will be tracked into your house
  - Mosquitoes breed in puddles of water that stand.

BE SURE TO KEEP ALL GARBAGE AND TRASH CANS  
CLEAN: Wash them now and then with hot soapy water.

Issued October 1967
